TOURIST ATTRACTIONS:

BUSAN

- **Huinnyeoul Cultural Village -** This is a small coastal village in Yeongdo, connected to Busan. The southern sea stretches under the cliff right in front of the village. The only village in Korea with a cliff is the Huinnyeoul Coastal Village. Feel the coastal village blended with the cliffs!
- **Yonggung Temple -** Was first built in 1376 by the great Buddhist teacher known as Naong during the Goryeo Dynasty.
- **Haeundae Blueline Park Sky Capsule (4 persons per capsule) -** Is a charming, slow-paced, 4-seater automated capsule ride on an elevated track (7-10m high) along Busan's coast, unobstructed views of Haeundae Beach and the ocean, perfect for couples or families seeking a unique, scenic, photo-friendly experience above the seaside park.
- **Cheongsapo Daritdol Skywalk -** Located beside the Haeundae Blueline Park Green Railway, this is one of Busan's most popular seaside viewpoints. Expanded in 2024 into a U-shaped observatory stretching 191 meters in length, it features a crescent-shaped glass floor at the end, offering the thrilling sensation of walking above the sea. Visitors can enjoy panoramic views of the Cheongsapo coastline, the Daritdol rock formations, and breathtaking sunrise and sunset scenery.

JEJU ISLAND

- **Yongduam Rock -** Is a volcanic rock that was created from an eruption about two million years ago.
- **Seongsan Sunrise Peak -** Where you can enjoy the spectacular natural surroundings.
- **Seopjikoji -** Is located at the end of the eastern shore of Jeju,the popular Korean <All In> drama shooting site.
- **Seongup Folk Village -** A folk and history museum with miniature display of traditional villages.
- **The Handam Coastal Trail -** Is a beach promenade extending from Aewol Port. The total length is 1.2 kilometers. Walking along the coastal road, the waves slowly come ashore, and the mood is also calm. The various strange-shaped rocks formed by the hardening of lava are eye-catching, and the black reefs along the winding paths along the coast add to the interest of walking. It is located in the western part of Jeju Island, so it is convenient to enjoy the beautiful sunset, which is also the attraction of this place.

SEOUL

- **Gyeongbok Palace -** Built in 1395, Gyeongbokgung Palace is also commonly referredto as the "Northern Palace" because it is the furthest north when compared to the neighboring palaces. Gyeongbokgung Palace is arguably the most beautiful and remains the grandest of all five palaces.
- **National Folk Museum -** A National Museum uses replicas of historical objects to illustrate the history of traditional life of the Korean people.
- **Namsan Park -** Namsan Park rises in the heart of Seoul at an elevation of 265 meters. Since the Joseon Dynasty (1392–1897), it has been regarded as a sacred mountain and is home to numerous historical sites. Although heavily damaged in the early 20th century, the area was restored and developed into a public park in 1968. Its most famous attractions include N Seoul Tower and the iconic Love Locks symbolizing eternal love. Visitors can easily reach the summit by cable car or bus.
