## TOURIST ATTRACTIONS:

### DUNHUANG

- **Mingsha Mountain Crescent Spring** - Located in Dunhuang, Gansu, this natural wonder perfectly blends desert and oasis. Crescent Spring, named for its crescent shape, features clear waters that never run dry, serene and picturesque year-round. Mingsha Mountain is famed for its singing sand, where fine grains produce sound as the wind blows. Surrounded by golden dunes and emerald waters, it is known as the "Pearl of the Desert."
- **Yumen Pass** - An important gateway on the ancient Silk Road, first built during the Western Han Dynasty, it once served as a key passage to the Western Regions, combining military and trade functions. Set against the mountains in a strategic location, it was a major hub on the northern Silk Road route. The remaining ruins of ancient walls and gate structures, framed by old trails and the Gobi Desert, reflect the stark grandeur of a frontier stronghold.

### KANAS

- **Kanas Scenic Area** - Known for its changing colours through the seasons, Kanas Lake is surrounded by snow-capped mountains, forests, and meadows. Scenic spots like Wolong Bay and Moon Bay offer stunning views of the crystal-clear water. Tuva wooden houses and herders' tents add ethnic charm.

### BURQIN

- **Burqin Five-Coloured Beach** - Five-Coloured Beach in Xinjiang's Burqin River Valley is a vivid Yadan landscape shaped by wind erosion, with rock formations glowing in shades of red, yellow, purple, and grey. The river divides the scene into rugged desert on one side and lush greenery on the other. At sunset, the colours deepen, creating one of northern Xinjiang's most iconic vistas.

### URHO

- **Urho Ghost City** - Located in Karamay, Xinjiang, this area is famous for its dramatic wind-eroded rock pillars and "castle" formations. The rocks rise in striking shapes — spires, solitary peaks, and natural corridors — with the wind whistling through them, adding an eerie, mystical aura. The landscape is both desolate and majestic, especially at sunset, when the rocks glow in golden light, creating a breathtaking view.

### SAYRAM LAKE

- **Sayram Lake** - "Sayram" means blessing in Kazakh and the lake is commonly known as "Santai Haizi." Nestled in the West Tianshan Mountains like a shimmering sapphire, Sayram Lake is surrounded by lush meadows and verdant pastures. Sitting at an altitude of 2,073 meters, the slightly oval-shaped lake stretches 20 km east-west and 30 km north-south, covering 454 square km with a maximum depth of 86 meters. It is the highest and largest alpine cold-water lake in Xinjiang.

### NALATI

- **Nalati Grassland** - Located in Ili, Xinjiang, at an altitude of about 2,200 meters, Nalati Grassland blends snow-capped mountains, canyons, and flower-filled meadows, and is recognized as one of the world's four major alpine meadows. In summer, lush pastures dotted with wildflowers, cattle, and sheep create a charming landscape. The Sky Grassland perched on the Tianshan mid-mountain, offers panoramic views of valleys, rolling mountains, and vast pastures, presenting a truly breathtaking natural scenery.
