TOURIST ATTRACTIONS:

ULSAN

- ◆ **Jangsaengpo Whale Museum** - Is located in Jangsaengpo, once a whaling port. It offers insights into the birth, evolution, ecology, and history of whaling. Exhibits include a 10-meter-long whale skeleton, whaling tools, and artifacts. Nearby, visitors can explore the Whale Life Experience Center and a recreated Whaling Village.
- ◆ **Daewangam Park** - Located at the end of the most tapering part of the southeastern tip of South Korea heading toward the East Sea, is also famous for the Ulche navigation route signpost that guides navigation in the East Sea. There is a 600m shady pine forest trail from the park entrance to the lighthouse. Leaving the pine forest, the coastal cliffs that come into view are like dinosaur fossils from prehistoric times standing in front of the blue sea, and the huge rocks that give people an illusion are gathered here. The red rocks form a sharp contrast with the deep blue East Sea.

BUSAN

- ◆ **Busan Fireworks Festival** - Takes place every autumn along Gwangalli Beach. The festival's diverse programs of cultural events, high-tech laser light shows, and myriad of unique and colorful fireworks make this one of the area's most popular festivals, drawing crowds of over 1 million visitors each year.
- ◆ **Haeundae Blue Line Park Beach Train** - Take a train with a retro shape, and the direction of the chairs is all facing the seaside, and you can enjoy the coastline of East Busan along the way.
- ◆ **Gamcheon Culture Village** - "Korea's Santorini." "Korea's Machu Picchu." "Lego Village." These are the many nicknames the Busan neighborhood of Gamcheon 2-dong Village—has earned over the years.
- ◆ **Yonggungsa Temple** - Was first built in 1376 by the great Buddhist teacher known as Naong during the Goryeo Dynasty.
- ◆ **Yongdusan Park** - Is considered a favorite resting place among the citizens of Busan. It is called Yongdusan because the shape of the mountain looks like the head of a dragon that climbs to land from sea. Yongdusan park has an area of about 69,000 m.

GYEONGJU

- ◆ **Gyeongju Gyochon Traditional Village** - Offers an immersive experience where visitors can wear traditional hanbok while exploring a historic village of over 700 hanok houses.
- ◆ **Bulguksa Temple** - The representative relic of Gyeongju and was designated as a World Cultural Asset by UNESCO in 1995. The beauty of the temple itself and the artistic touch of the stone relics are known throughout the world.
- ◆ **Woljeong Bridge** - Was originally built during the 19th year reign of King Gyeongdeok, the 35th King of Silla. However, it was destroyed and what was left was just the stonework of the original bridge. After a series of thorough research, the bridge was re-constructed into what it looks like now. Woljeong Bridge is most attractive in the evening when the colorful lights are turned on. In spring, the cherry blossom trees in bloom add beauty to the already scenic bridge.
