- ☑ Mountain City Trail (Free Glutinous Rice Balls / Per Pax)
- ☑ Longmenhao Old Street
- ☑ The Eye of The Clouds (Including Elevator)

### D9 ARRIVE KUALA LUMPUR (MOB)

## TOURIST ATTRACTIONS:

### JINFO MOUNTAIN

- ◆ **Jinfo Mountain** - Also known as Jinshan, anciently named Jiudi Mountain, it is the main peak of the Dalou Mountains. Formed 260 million years ago, Golden Buddha Mountain, along with Mount Everest and the Mayan civilization, is located near the mysterious 30th parallel north. It possesses the three wonders of Karst World Natural Heritage, biodiversity, and Buddhist culture. The scenic area boasts unique natural landscapes, rugged cliff pathways, ancient Tang temples, and a harmonious blend of mountains, water, forests, springs, and caves. It combines grandeur, oddity, danger, and beauty. It's suitable for tourism all year round, offering opportunities to appreciate high-altitude azaleas in spring, enjoy a summer paradise, witness the colorful autumn, and experience a southern snowy plain in winter. It is a tourism masterpiece throughout the seasons, a holy site for Zen and Buddhism. It has been successively awarded as a national-level scenic spot, national nature reserve, national forest park, national natural heritage, national popular science education base, and national 5A-level scenic area. In June 2014, it was successfully listed as a UNESCO World Natural Heritage Site.

### WULONG

- ◆ **Three Natural Bridges** - Is a filming location for the movies "Curse of the Golden Flower" and "Transformers 4." It is a world wonder with three bridges spanning two pits. It is a typical karst landform, a marvel of nature, including caves, tiangkengs (natural pits), fissures, canyons, peaks, and alpine grasslands, presenting a comprehensive range of forms. The three bridges are Tianlong Bridge, Qinglong Bridge, and Heilong Bridge. From the entrance of the sightseeing elevator to the bottom of the first Tianlong Bridge, you can directly see Tianfu Yanyi. In 2011, it was rated as a national 5A-level tourist area.
- ◆ **Fairy Mountain National Forest Park** - Is a national 5A-level scenic area located in Wulong County, Chongqing. It covers a total area of 8,910 hectares, with an average elevation of 1,900 meters and the highest peak reaching 2,033 meters. It is known as the "Swiss Alps of the East" due to its charming alpine meadows, rare southern forests, and snowy landscapes. Combined with the magical Furong Cave, the beautiful Furong River, and the world's largest Three Natural Bridges, it forms the best tourist and sightseeing resort in Chongqing. The average temperature at Xiannvshan is 15 degrees Celsius lower than in the main urban area of Chongqing, earning it the title of "Summer Palace of the Mountain City."

### XUAN'EN

- ◆ **Lion Pass** - A hidden scenic gem that combines dramatic canyon landscapes with unique waterside views. Towering cliffs rise on both sides of the gorge, resembling majestic lions guarding the pass, creating an imposing and awe-inspiring scene. One of the most distinctive highlights is the "water road," where vehicles appear to glide across the surface, offering a striking visual experience. The crystal-clear emerald waters, layered canyon formations, and lush natural vegetation blend harmoniously, forming a tranquil yet mysterious landscape—ideal for photography and leisurely sightseeing.

### ENSHI

- ◆ **Enshi Daughter City** - Themed around Tujia stilted buildings, showcases the rich folk customs of the Tujia ethnic group. The streets paved with gray gravel cobblestones wind along the mountains, following the terrain, designed along the water flow, demonstrating a harmonious coexistence of people and nature. The Daughter Street is the representative part of the Daughter City, located in the core of the ancient city. It is one of the most prosperous commercial areas in Enshi and is renowned as Oriental Valentine's Day or Tujia Valentine's Day. Visitors are attracted by the hand-waving dance, bowl-smashing liquor, and more.
- ◆ **Enshi Grand Canyon** - Is a national 5A-level scenic area and a national geopark, known as the "natural museum" of karst landforms. Its unique ecological environment and pristine natural landscapes include a gallery of ten thousand meters of cliffs, hundreds of meters high waterfalls, numerous unique peaks, and deep gorges stretching for tens of kilometers. Seven Star Scenic Area mainly includes geological landscapes such as rifts, cliffs, strange peaks, and canyons, representing the essence of the entire Qingjiang Great Fault landscape. The Incense Burner Peak is the landmark of the Enshi Grand Canyon and is a rare sight in similar karst landforms.

✓ 7 Breakfast / 7 Lunch / 6 Dinner

Special Cuisine:

★ Chongqing Hotpot

★ Square Bamboo Shoots Flavour

★ Tujia Bowl-shaking Banquet

★ Fuling Cuisine

HOTEL OR SIMILAR (7 NIGHTS)
